Joe Novak

White Rocks Reservoir.

A35504 divert 5 cfs. should be 8/08/1963

Moon Lake.

His interpretation - only those which might be impaired by the change.

Can store ~~when~~ during irrig season & the limit of its right when water could be beneficially used, <sup>or</sup> maybe ~~allow storage~~ based on what could be consumptively used.

~~at time~~  
of storage.

Willard Wall

Owyay Park. —

Segregations made either or. not specific  
to any particular place of storage.

Change to sprinl irrigation ~~had to~~ stretch out  
over double filing reservoirs. — check ad ~~the irrig.~~  
commissions report. ~~season~~

(Bullock Draw rights transferred to ) ?  
Cottonwood Res.

Cons. Distrct may be making some changes to improve situation.

No <sup>protest</sup> opposition on Cottonwood - except from Bureau claimed on enlargement - none found.

Joe Samp - no protest because thought  
S.E. would do the right thing - decrease priority

Carl Schuttles.

Cedar View filing. -  
Samp - he was told  $\Rightarrow$  no change in priority  
would be necessary.

was not present later - didn't see or  
protest decision.

Bill Hanes. Owyay Board.

why would Water Resources loan money  
if Water Rights are not in order.

Dave Murray.

change to ~~sprinkler~~ sprinkling. - to change in use.

Willard Wall.

everyone does double filings of reservoir.

Lynn Winterton

double filing

Neal Dominguez.

Don't use reservoir storage as a limit  
of the diversion right of a filing.

Willard Wall > Reg. Res. concept.

Sprinkler systems. don't use (1/70) too much flow - want to catch excess water and use it later on.

Decree - limits to 3 AF.

Joe Problem - filing of elections. - problem of leaving it to State Engineer

Willard Wall > Commissioners Reports go back to 1928 very few years that winter flows fill all reservoirs - must rely on high water.

Orray Park behind efforts to get more storage.
